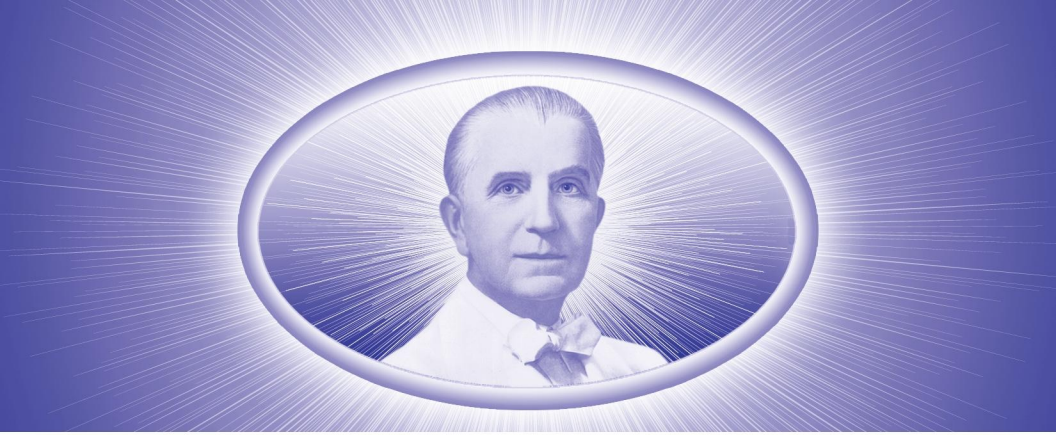
The Magic Presence



TALK

MR. G.W. BALLARD

SHRINE AUDITORIUM • 1938
(EXCERPTS)

THE NEED FOR TODAY

Now look how important, Dear Ones—in your business and the young people in school, what would you do?—say you have four studies in your school, Blessed Young People. You have history and geography and mathematics and spelling. If you kept your attention on mathematics all the time, what would you know about the other three? Would you know anything? Not one thing. You can't know anything about anything except through your attention. Now that's the vital importance that it is. Therefore there was nothing to call mankind's attention to the Ascended Masters. Until Saint Germain called your attention—how could you know anything about it? It's not at all surprising; but all the things that came forth—you know, when the first steam engine came, everybody said, "Why, everybody will be killed!"

And look—look what has been in your mechanical world in forty years. My Dear People, you've gone from the horse and buggy to the bird life, flying through the air two hundred and fifty miles an hour. And I used to be just exhausted in going twelve miles to town by horse and buggy. *(laughter—applause)* Now look, that's within every one of our lifetimes, My Dear People. And now, now let us be practical in this thing. If the mechanical world, which it has, produced that advancement in forty years, then in the name of God, what would ten years do in the Acknowledgment of your "Presence"? Don't you see? *(applause)*

And you see it in the observation of this Work. No particular credit to Mrs. Ballard and I except that we did make dynamic, powerful Application—but look, without a word of advertising or anything except a little announcement sent out, why, nothing in the world has ever done anything like it. Well, if that was human, do you suppose it could have done that? Not for anything in the world—wouldn't be possible. It's because of the Divine Radiation from these Great Beings of Light that has made all this possible. Therefore, it's just beginning. Their Powers of Light, Dear Ones—do you know there is scarcely a day passes in which something vital does not come up in which we stand and make one dynamic Call; and it's the rarest thing in the world for it not to come back answered within twenty-four hours. Last night at one o'clock we made a dynamic Call, and the Answer came back at eight o'clock this morning Victorious. *(applause)* Now, Dear Ones, if this wasn't a constant thing, you might think that, well, we just happened to hit upon a current of energy or something that produced those temporary results. But it's not so. It's a continuous

thing and has been for almost four years—well, really seven years since we began; but I mean nearly four years since we began the public work.

Therefore, Dear Ones, the Law, the proof is before every human being on this Earth who wants to see it. Of course, one won't see a thing they don't want to. Well, that's quite all right. But I want you to get this so firm now: *Dear Ones, your Application can't fail you.* And Dear Ones, I sometimes smile when I get letters, very earnest Calls for help. Many times it's already been given. But you know the reason I smile? Not because you call; but to think there is that precious Student with the greatest Power in the Universe beating their Heart *(chuckle)*, and then they come to me. *(laughter)* Don't you see? And it's so true, Dear Hearts. Why, every one of you has the greatest Intelligence and Power in the Universe beating your Hearts, Dear Ones.

You can do the same thing that I do and Mrs. Ballard, only you don't quite believe it yet. But you can. Ere long you'll be quite sure of it, and therefore your Call is just as powerful as ours. But knowing that the great body of Students do not all have that confidence yet, we are constantly pouring forth Courage and Strength and Assistance to the whole body of Students everywhere. And it's a magnificent thing to be able to know that you're giving Strength and Courage—oh, so many times when the precious ones (well, lots of them now) know very directly and very clearly when they receive our Current of Energy.
